

AMsuite®

We've made enhancements to AMSuite with the following features and functionality. On August 15th look for the following improvements:

Print ID cards immediately

Recreational product ID cards will now be available to print once the policy is issued and also after a policy change. View and print the ID card from the Policy Summary page.

 [Click here to view the changes](#)

New reminder about sensitive data

A new disclaimer will display when creating a note or uploading a document to remind you that information containing unmasked, sensitive, non-public personal information (NPPI) should not be added to the policy. Prior to creating the note or uploading the document, you should **mask or block sensitive data**.
